

# CONTENTS

---

---

## SYMPOSIUM A — CAPITAL COST CONTROL

---

- A-1 *Practical Cost Control: Techniques and Timing* — J. Peter Bullis
- A-2 *The Pilot Plant can be Skipped* — Ernest A. Stallworthy and Dr. O.P. Kharbanda
- A-3 *Budgeting by Criteria not Cost per Square Foot* — Donald E. Parker, CCE
- A-4 *Tailoring PM to the Project* — Charles Poulton, P Eng. CCE
- A-5 *Cost Controls for International Development Projects* — Raymond H. Lennark, PE CCE
- A-6 *Earned Value Back to Basics* — Irwin Bromberg, CCE

---

## SYMPOSIUM B — CAPITAL COST ESTIMATING

---

- B-1 *Capital Cost Estimates: Sensitivity to Schedule* — David J. Peeples, CCE
- B-2 *Estimating Costs of Synthetic Fuel Projects* — John Scango
- B-3 *A Study of Power Factors in Japan* — Kurazo V. Yokoyama
- B-4 *Comparing Cost Estimates of Processes at Different Stages of Development* —  
Dr. Ivan V. Klumpar, CCE and Malcolm A. Weiss
- B-5 *The Value of Precision in Cost Estimates* — David A. Frost
- B-6 *Contingency Evaluation in Capital Cost* — Lawrence C. Bacher, CCE
- B-7 *Simulation Model of a Batch Chemical Process* — Beno Zaidman
- B-8 *Chemical Engineering and Cost Engineering are Getting Married Finally* —  
Gustav Enyedy, Jr., CCE
- B-9 *The 150 Bed Medical-Surgical Hospital* — James R. Kwapiil
- B-10 *Application of Parametric Estimating to Cost Engineering* — Dr. James H. Black, CCE
- B-11 *Estimating Engineering Costs for the Appropriation of Funds without Drawing Counts* —  
C. Arthur Miller, PE CCE

---

## SYMPOSIUM C — CONSTRUCTION COST MANAGEMENT

---

- C-1 *Cost Management Report: The Business Roundtable Project* — Dr. George Stukhart
- C-2 *Learning Curves and Work Interruptions in Construction* — Vassilios Frantzolas
- C-3 *Public Construction Bidding: Technical-Economic Analysis* — Jose-Julio Bastidas N.
- C-4 *Complex Claims: Cost Principles, Models and Behavior* — Michael O'Connor, PE
- C-5 *Estimating and Negotiating Change Orders* — Leonard A. McMahon, CCE
- C-7 *Authority over Cost Control of Construction* — G.E. Ninos and S.H. Wearne
- C-8 *Construction Claims: Justification and Negotiation* — William G. Clark, CCE

---

## SYMPOSIUM D — MANAGEMENT SCIENCE

---

- D-1 *Management Controls in a High Tech Environment* — Kenneth M. Guthrie, CCE
- D-2 *A System Dynamic Project Management Model* — Bertrand Braunschweig and Jean-Claude Huot
- D-3 *Mathematical Manipulation of S-Curves* — Alan D. Miine
- D-4 *Performance Measures by Means of Activity Sampling* — Kurt G.R. Heinze, PE CCE
- D-5 *Simplified Risk Analysis in Project Economics* — Julian A. Piekarski, CCE
- D-6 *Geographical Distribution of Work Environment* — Enno Koehn and Edward A. Hayes

---

## **SYMPOSIUM E — PLANNING AND SCHEDULING**

---

- E-1**     *Project Control on a Major Offshore Engineering Project* — Egil Hansen
- E-2**     *The CPM Technique in Construction: A Critique* — Derek Mason
- E-3**     *Have the Network Fit the Project* — Donald J. Cass, CCE
- E-4**     *Modern Innovations in Scheduling Techniques* — Dr. James E. Rowings, Jr. and John S. Bloess
- E-5**     *Planning and Scheduling Subsea Installations* — Eilif Holen, Sven-Erik Topp and Einar Kielland-Fosterud
- E-6**     *Enhancing Reliability of Project Duration Forecasts* — Dr. Hira N. Ahuja, CCE and V. Nandakumar
- E-8**     *A Scheduling Tool for Smaller Jobs* — Fred F. Rahbar
- E-9**     *Engineering Document Planning and Progress Control* — C. Henrik Lund and Jon Ostensvig

---

## **SYMPOSIUM F — COST INDEXING, INFLATION AND ECONOMIC CHANGE**

---

- F-1**     *International Composite Cost Location Factors* — Rudolph V. Massa, CCE
- F-2**     *A Cost and Location Index Grid* — John E. Cran
- F-3**     *Escalation Modeling, Forecasting and Tracking* — James J. Stevenson, Jr., CCE

---

## **SYMPOSIUM G — COMPUTER APPLICATIONS**

---

- G-1**     *Integrated Computer Systems* — Frederick Wm. Mueller, CCE and Phillip F. Mueller
- G-2**     *Computerized Materials Management for Engineering/Construction Projects* — R. Cook, PE CCE
- G-3**     *ICES-Project/1-On Microcomputer* — Edmond T. Miresco
- G-4**     *An Evaluation of Project Control Computer System Development* — Fulvio Drigani
- G-5**     *Computerized Contract Cost Control* — Bryan P. Frost
- G-6**     *Electronic Spreadsheets in Feasibility Studies* — Dr. M.S.A. Vrijland and Dr. K.R. Westerterp
- G-7**     *Mainframe vs. Microcomputer Estimating Systems: Advantages, Disadvantages and Future Trends* — John T. Kenny, CCE and Robert S. Williamson
- G-8**     *An Integrated Computer System for Cost Estimating* — Thomas C. Ponder, Jr., CCE and William E. Gallagher
- G-9**     *Development of a Fuzzy Cost Data Bank* — Ilkka Turunen, Martti Jarvelainen and Mirko Dohnal
- G-10**    *Integrated Project Control Data Base* — George E. Conniff and Walter A. Schindler
- G-11**    *Information System for Construction Companies under Inflationary Conditions* — Dr. A. Laufer

---

## **SYMPOSIUM H — PRODUCTIVITY**

---

- H-1**     *An Improved Technique of Productivity Measurements* — Steven G. Revay, CCC
- H-2**     *Craftsman Questionnaire Sampling for Construction Productivity* — Luh-Maan Chang
- H-3**     *Predicting Productivity* — James M. Neil, CCE and Lee E. Knack
- H-4**     *Management Development Leads to Increased Productivity* — Karl W. Haavind
- H-5**     *Construction Industry Factors Impairing Productivity* — Paul Fazio, Don Chutter, Guy A. Bourassa and Dr. Alan D. Russell

---

## **SYMPOSIUM I — OPERATING/MANUFACTURING COST**

---

- I-1**     *Refrigeration Cost Impact on Large Liquefied Gas Storage* — Pierre Montastruc
- I-2**     *Estimating Manning Levels for Process Plants* — W.A. Alkhayat and Dr. A.M. Gerrard
- I-3**     *"What is Missing?" — An Integrated Approach to Manufacturing Cost Estimating* — Gordon F. Gantz, CCE

---

## **SYMPOSIUM J — LIFE CYCLE COSTING**

---

- J-1**     *Life Cycle Costs and Economic Feasibility of the Atmospheric Fluidized Bed Combustion Power Plants* — Richard Holstein  
**J-2**     *Life Cycle Costs in the West German Construction Industry* — Klaus L. Wuebbenhorst  
**J-3**     *Life Cycle Costing Today* — Dr. Aaron Rose, CCE
- 

## **SYMPOSIUM K — UTILITY AND ENERGY COST**

---

- K-1**     *Drilling and Oil Production Cost Control* — Christian Richard  
**K-3**     *The Grand Canal Concept* — Thomas W. Kierans  
**K-5**     *Project Control for Maintenance/Modification Projects: Back to Basics* — Ronald P. Vigue  
**K-6**     *Definitive Cost Modeling* — Ken O. Adkisson, CCE
- 

## **SYMPOSIUM L — MATERIAL AND LOGISTICS CONTROL**

---

- L-3**     *Materials Handling and Management Guidelines* — John S. Bloess and Dr. James E. Rowings, Jr.
- 

## **SYMPOSIUM M — ENGINEERING ECONOMICS AND VENTURE ANALYSIS**

---

- M-1**     *Calculations of Lost Profits from Lost Business Opportunities* — Kris R. Nielsen and Joseph J. Galeno  
**M-2**     *Continuous Discounting applied to Ranking of Investments* — Michael J. Marr, PE  
**M-3**     *Capital Allocations Utilizing the Cost Engineer* — H. Charles Anderson, CCE  
**M-4**     *Future Capital Investment by an Industry* — Michael F. Davy, G.E. McBride and K.M. Thompson  
**M-5**     *Plant Economics and Reactor Design* — Dr. K.R. Westerterp and Dr. M.S.A. Vrijland  
**M-6**     *The Decision Making Process* — Hans J. Lang, CCE
- 

## **SYMPOSIUM N — EDUCATION AND PROFESSIONAL AFFAIRS**

---

- N-2**     *Project Control Education Requirements* — Asbjorn Rolstadas  
**N-4**     *The Cost Engineer's Niche in the Overall Project* — Edward R. Meyer and Kenneth R. Cressman, CCE
- 

## **SYMPOSIUM O — PROJECT MANAGEMENT**

---

- O-1**     *The Scandinavian Alternative to Project Management* — Tom Bilden and Hans Hiorth  
**O-2**     *Guidelines for Managing Lump Sum Engineering Projects* — S.M. Mukho and L.R. Doris  
**O-3**     *Engineering and Design Models: A Project Management Tool* — Lyman P. Morrill and Steven H. Popper  
**O-4**     *Contractor Proposal Evaluation Program* — James A. Bent, CCE  
**O-5**     *Third World Estimating in Project Management* — Michel Milot  
**O-7**     *Industrial Competitiveness and Management* — Claude Pettitdemange  
**O-8**     *Project Cost Control by the Government of Canada* — Jean-Guy Hache
-
